

Print Management for K12 EDUCATION

PaperCutMF

Simplify printing school-wide to maximize budgets and focus on what matters most.

What is it?

PaperCut MF helps you introduce easy printing from any device – all while protecting student information, cutting costs, and reducing waste. Pair PaperCut with MFD embedded software and hardware integration to provide full print, copy, scan, and fax control.

Key Benefits

Simple to use. Get up and running in minutes.
Solve BYOD and mobile printing across all devices.
Manage spending by student, subject, or department.
Report on printer activity by student, class or department.
Designed for education.

Key Features

Print Policies: Encourage duplex or black and white printing
Built-in Reports: See newfound savings and focus areas
Mobility Print: Easy, accountable Chromebook printing
Job Ticketing: Manage FabLabs, Print Rooms & 3D printing
Google Integration: Direct user syncing from G Suite
Scan to Cloud Storage: Send documents straight to Google Drive

Landscape

With the average student wasting 3,200 sheets of paper every year, costs can spiral. Environmental impact can, too.

Over 2.1 million Chromebooks use PaperCut MF.

PaperCut products are trusted by schools all over the world.

Complete control over print, copy, scan & fax

Google for Education Premier Partner

PaperCut was developed to help cut costs and waste by managing printing and making it easier than ever. Now, as a Google for Education Premier Partner, we're working closely with Google to give Google for Education schools the ultimate printing experience.

- Built-in scanning to Google Drive
- Convenient user syncing in the cloud
- Super secure Google authentication

Case Studies

“Find-Me Printing alone has drastically reduced the amount of uncollected print jobs sitting in output trays.”

– Eric Hodges, Director of Procurement and Materials Management, Westminster Public Schools
